

**Remarks/Arguments**

Entry of the foregoing amendment is respectfully requested. It is respectfully submitted that entry of the foregoing amendment will place this application clearly in condition for allowance.

In the final office action, claims 1, 3-6 are allowed. Claims 7-10 are rejected as anticipated by or obvious in view of the cited references, and claim 11 is objected to and indicated allowable in independent form. According to the foregoing amendment, allowed claim 4 has been amended simply to more accurately define the present invention (see paragraph 0032 of the specification). Claim 11, which was objected to and indicated allowable in independent form, has been canceled and replaced by new claim 12, which places claim 11 in independent form. Finally rejected claims 7-10 have been canceled (without prejudice). Hence, entry of this amendment should put this application clearly in condition for allowance.

Accordingly, for the reasons set forth above, it is respectfully submitted that the present invention, as set forth by, is not disclosed in or obvious from the cited references.

Favorable action is respectfully requested.

Respectfully submitted,
